

What readers say about these two books

I want to thank you for honouring my father in this book, and for giving our family a truly special gift!

You and your team deserve great credit for providing another wonderful addition to our Navy's historical collection – BZ to you!

What you have done is a terrific effort for the benefit of all who served.

I have now received my copy of Bravo Zulu, and would like to thank you for having done an absolute fantastic job in compiling all the interesting information about the RAN and RANR, and all those that served.

An amazing book; obviously a lot of work on your behalf and a labour of love.

My Dad was blown away that someone had written such a comprehensive book on awards in the RAN and has been reading it with avid interest

It was a pleasure to contribute to the amazing body of work that is Bravo Zulu Vol 2; both Fred and I are chuffed that our contribution to our Service and Nation are captured for prosperity, and for our children.

Your book is terrific and is a significant achievement. Thanks.
